

# SYNTROPY

n. 2, year 2005

ISSN 1825-7968

This issue is dedicated to **Sintropia-DS** (Statistical Database) which is distributed free of charge with this number of Syntropy.

Sintropia-DS has been developed in the last 23 years of scientific research within university structures and public administrations, and allows to use the relational methodology, described in the first issue of Syntropy, which broadens science to syntropic phenomena.

In this number:

	Pag.
<b>Sintropia-DS: Statistical Database</b>	61-63
<b>How to prepare a questionnaire or a form</b>	64-68
<b>Editing a form with Sintropia-DS</b>	69-77
<b>Data Entry</b>	78-82
